

Transforming Care

Improving care and support for people with a learning disability and/or autism who display behaviour that challenges

This information is to tell you about the **Transforming Care programme** and some of the work that is happening.

About the Transforming Care work

After the abuse at Winterbourne View Assessment and Treatment Unit there has been lots of work to support people out of specialist hospitals and living back nearer their homes.

There are still people living in hospitals. This has got to change. Lots more people will be moving back to live in the community. This is good.

Transforming Care is all about making things better for people who have a learning disability and/or autism that sometimes have behaviour which can challenge. It is about children, young people and adults. Listening to what people and family carers is really important.

2019

Transforming Care programme.

Has 3 big aims:

1. Have good services in the community so people don't need to go into hospital.
2. Bring people who are in hospital back to live with us, at home.
3. Making sure people feel safe and secure in the community.

All these changes are meant to happen by 2019. We are all working hard to make sure we meet the deadline.

The Way Forward

The local areas that will work together are called **Transforming Care Partnerships.**

Telford and Wrekin and Shropshire is working together on the whole plan for our area.

We are called the **Shropshire Footprint**

Transforming Care Partnership Plan:- Shropshire Footprint.

This plan tells us
How many people there are in the
whole of Shropshire with a learning
disability and/or autism

It tells us things like:

- How old people are.
- How long they have lived in hospital.
- And our plan to get them back.

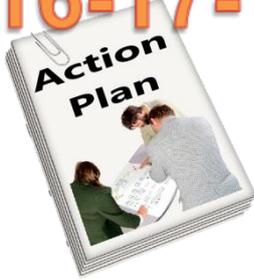

We want to know what people think.

- How parents and carers who have not been asked in the past can be involved in the future.
- How people are affected by difficult decisions.
- How people can make decisions about how money is spent.

2016-17-18

To make this plan work lots of different organisations are working together

The plan will be looked at again over the 3 years to see how Shropshire doing with this work.

Actions Plans developed in 2016 will show us how things are going.

There will be meetings and events for peoples, parents, providers, carers and professionals to get involved.

There will be regular updates on how things are going.
